

Setting Up OpenAI

Introduction

OpenAI allows you to integrate powerful language models into your applications. This tutorial will guide you through the process of creating an OpenAI API key and preparing it for usage.

Prerequisites

- An active OpenAI account.

Step 1: Create an OpenAI API key

1. Go to <https://platform.openai.com/api-keys>.
2. Click + Create new secret key.
3. Click Create secret key when done with the setup.
4. Copy the generated key.

Step 2: Integrate AI into Skooler

1. Fill in the two required fields in Skooler administration
 - API key (paste from previous step)
 - Model (e.g. gpt-5-nano or gpt-5-mini)
 - Base URL (not required, but can be added if you use another root)
2. Save
3. Verify that it works
